ST. LUKE'S HOSPITAL SCHOOL OF NURSING

“Nursing is an art, and, if it is to be made an art it requires as exclusive a devotion, as hard a preparation, as any painter's or sculptor's work; for what is the having to do with dead canvas or cold marble, compared with having to do with the living body—the temple of God's spirit?”

Probably no other profession presents so wide a field for the development of character and talents as modern nursing. The term nursing, originally embracing little but the personal care of the sick, now includes much that contributes to recovery, and also an ever-increasing number of public and social activities. Education for nursing prepares the student for many avenues of service, such as director of a training school, instructor or supervisor in one of the various departments of a hospital; also for the ever-widening field of public health work, including school nursing, rural and town nursing, tuberculosis and industrial nursing, and hospital social service. A nurse is limited only by her own limitations; for according to her ability will be her opportunity.

The nursing profession, with its intimate contact with the sick and its wonderful opportunity for service to humanity, calls for special qualifications in its students. They should be women who are strong mentally, morally, and physically. They must be cultured, sympathetic, and tactful, possessing a strength that springs from knowledge, and a magnanimity that springs from strength.

St. Luke's Hospital, which was established in 1864, had for many years a precedence in this country which was attested by the number of students who came to the training school from Canada and abroad, because of its high standard of service and its relative size. In later years, though many have equaled the equipment of St. Luke's, few have attained her traditions.

A portion of the older building still stands on Indiana Ave. front, but the south two hundred feet are now occupied by the new main building. In this building one entire floor is allotted to the educational and social activities of the Nurses' School. In it are a large living room, an assembly hall which is used as a lecture hall when large numbers are to be accommodated, and for social affairs, also class rooms, demonstration room, a laboratory, and library. The three floors next above are so arranged as to insure privacy and afford dormitory accommodations for one hundred and twenty-five pupils.

The "Stickney House," the present Nurses' Home, with its living-room, studies, etc., will be retained. This will insure thoroughly comfortable living conditions for pupils.

The "George Smith Memorial," erected in 1908, on Michigan Ave. for private patients only, will be conducted as at present.

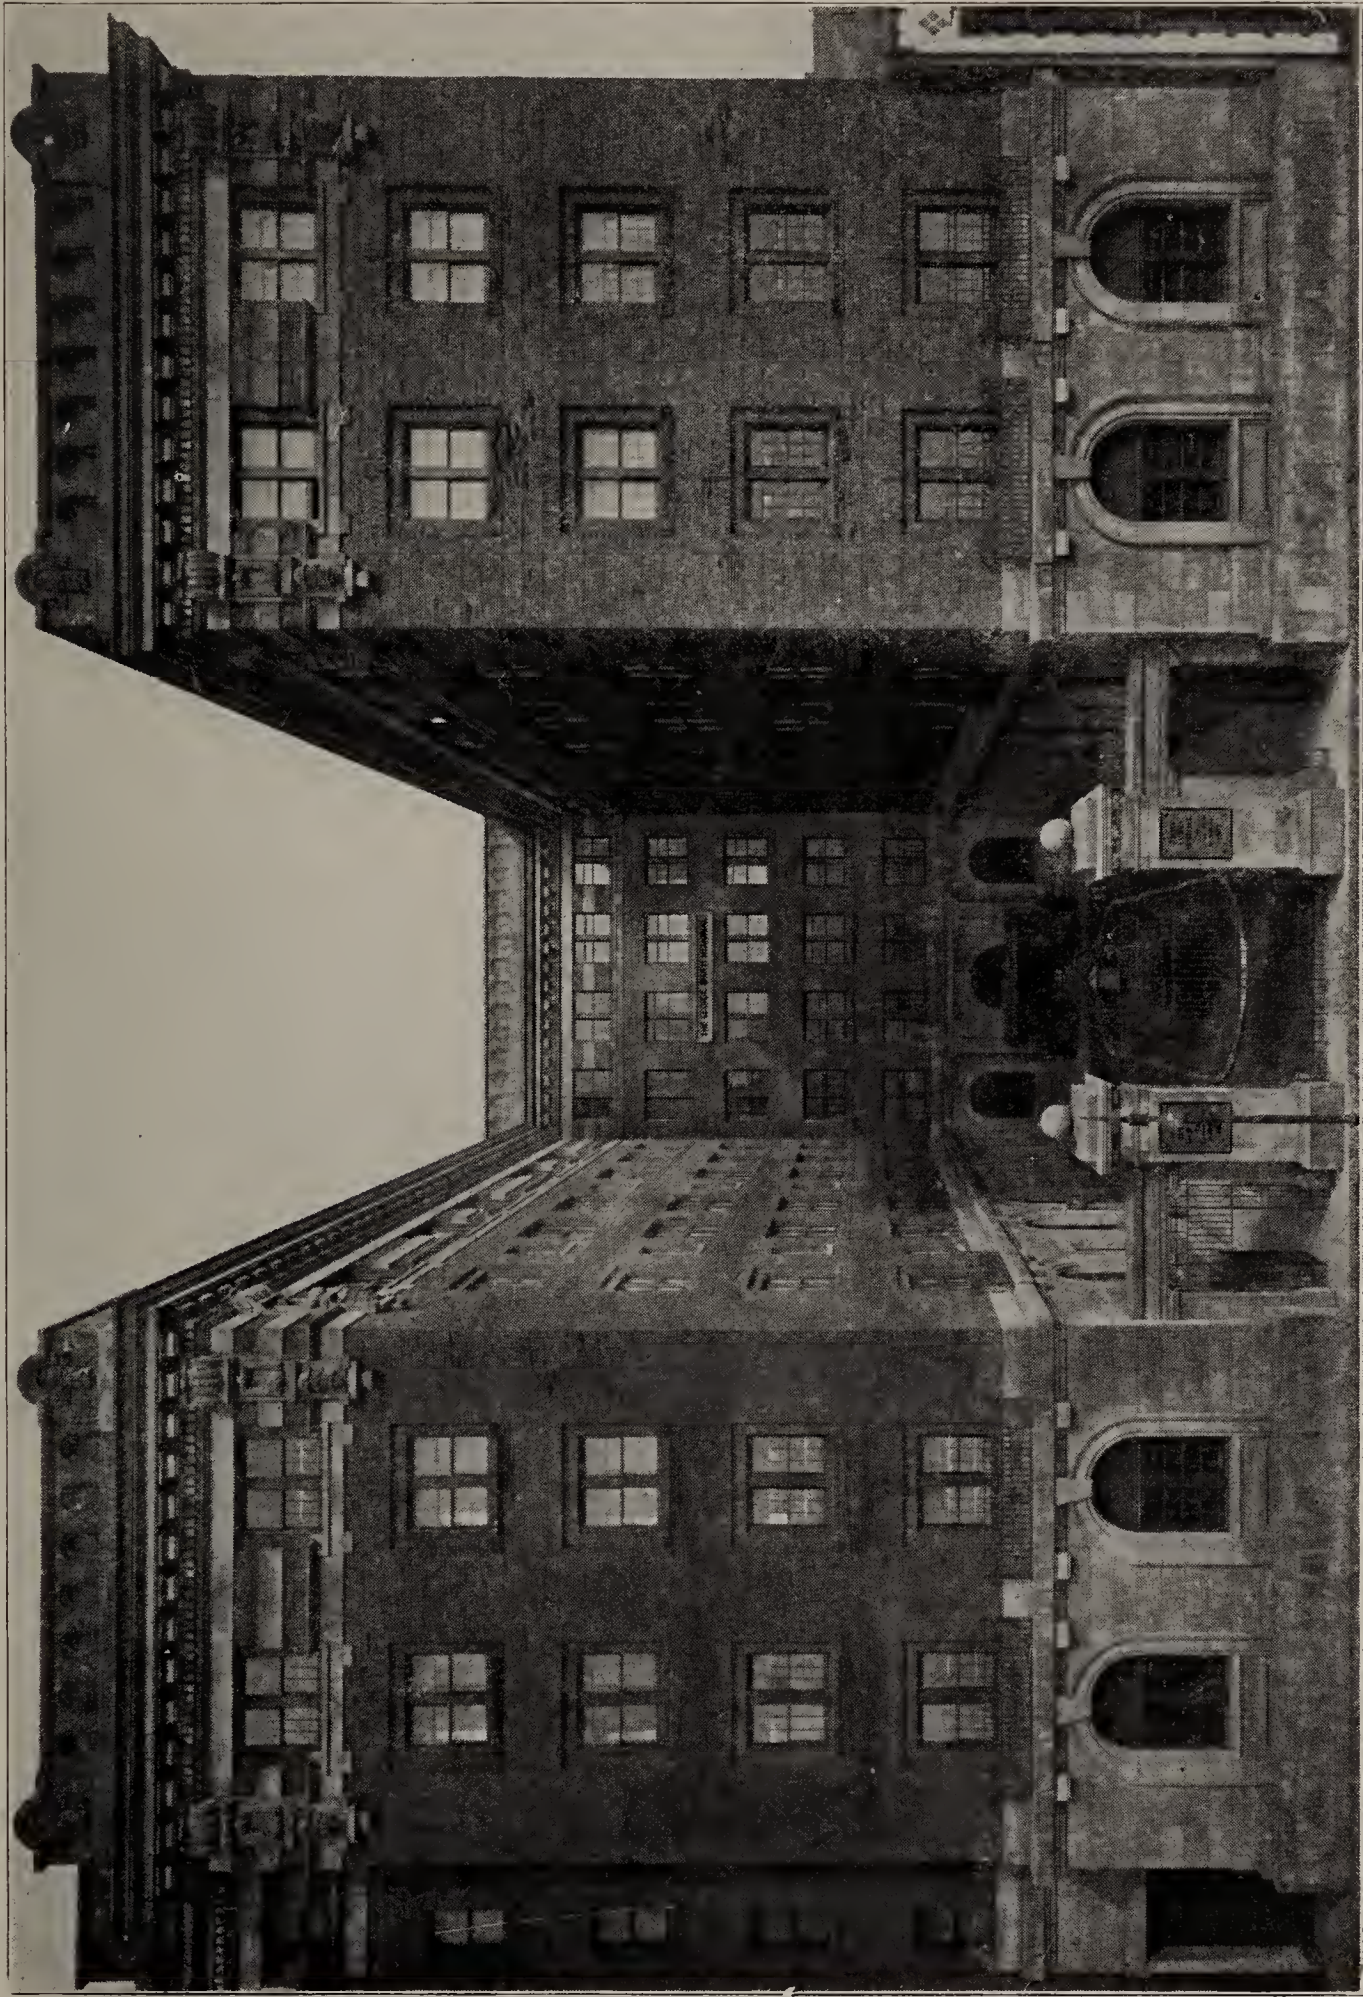

The character of the surroundings especially on Indiana Ave., will change in the course of a year. The street will be made one hundred feet wide and the character of the traffic will change entirely.

The proximity of the railroad will cease to be objectionable after tracks are depressed and the system is electrified.

St. Luke's is one of the few hospitals in Chicago that renders to the public the double service of a private institution where the advantage of the most efficient and luxurious medical service may be enjoyed and at the same time expert care dispensed free of charge to those unable to pay.

The capacity of the hospital including the private pavilion, is about six hundred and seventy-five. Approximately thirteen thousand patients are treated annually by the following services:

Medical	Surgical
Gynecological	Obstetrical
Ophthalmological	Urological
Otological	Rhinological
Oral Surgical	Laryngological
Dermatological	Orthopedic
	Neurological

ST. LUKE'S HOSPITAL, PRIVATE PAVILION

Such contagious cases as develop in the hospital are treated, thereby offering a limited experience in this class of nursing.

The School of Nursing, incorporated in 1885, is an integral part of the hospital, governed by the same Board of Trustees as direct the hospital proper.

The regular course covers a period of three years, including three months' vacation. It is divided into four periods—preparatory, junior, intermediate, and senior.

The preparatory term is five months, during which time the student spends six hours in theory and two hours in practice. At the satisfactory completion of this period, she is given the uniform of the School. After the expiration of twelve months, the student is entitled to wear the Blue Cross, the insignia of the School, embroidered on her left sleeve. The Blue Cross is worn by the nurses after graduation, emphasizing the spiritual co-operation in their ministrations to the sick and suffering.

During the senior period, students are given executive experience in the management of surgical and medical wards and floors, and in the Obstetrics, Surgery, X-Ray, Social Service, Public Health, Occupational Therapy, Orthopedics, Eye and Ear, Nose and Throat and Pediatrics. This is to a great extent elective with a view of special preparation for whichever branch of the nursing profession the student chooses to enter.

Admission:

Classes are formed in Fall and Spring. Candidates for admission must be between nineteen and thirty-five years of age, in good health, and must have a high school education or its equivalent. When making application, it is necessary to forward the following documents:

1. The application blank filled out in all its details.
2. Statement from Physician that applicant is in good health, free from organic defect, and has been vaccinated within the year.
3. Statement from Dentist that applicant's teeth are in good condition.

4. Testimonial as to character from Rector or Pastor of Church attended by applicant, and one other.
5. Educational credentials.

Wherever possible, it is desirable that candidate make appointment with Director of the Training School for a personal interview.

Schedule :

The schedule of a day on hospital duty is planned on an eight-hour basis, with the exception of Sunday and one day weekly, when students are off duty half of the day.

Religion :

While St. Luke's Hospital is an Episcopalian institution, the question of creed never enters into its work, either as to patients or the selection of students in the Training School, but all students are required to attend daily service in the Chapel, conducted by Resident Chaplain.

The Hospital and Grace Episcopal Church, the oldest Episcopal Church in Chicago, are now closely affiliated. Grace Church conducts a social service unique in kind, which will be correlated with the Hospital's Social Service Department.

Expenses :

No charges are made for tuition. Students receive board, lodging and laundry from date of entrance, but are required to purchase their own text books, caps and instruments. During the preparatory term, students provide their own uniforms and aprons, after which the school uniform is supplied. The necessary income for a nurse in training depends upon her own personal tastes and requirements.

Vacation :

Students are allowed a yearly vacation of one month.

Illness :

When ill, students are cared for by the Hospital and

KINDERGARTEN

treated professionally by a member of the Medical Staff. Any time which may be lost, other than vacations, must be made up at the end of the term.

Graduation :

The diploma of the School qualifies the student for State Examination as Registered Nurse, and is awarded to those who have satisfactorily completed their full term of training. Graduating exercises are held in the Episcopal Church, with reception the following evening in the Nurses' Home. The Alumnae gives an annual at home to welcome the members of the graduating class. The interest of the Hospital in the nurse does not cease when she graduates, but a register is maintained and the demand for St. Luke's graduates is never fully satisfied.

CURRICULUM

Preparatory Course

Elementary Nursing Technic, Methods and Procedures :

60 Hours

Lectures, demonstrations, recitations, clinics and practice under supervision, including instructions in lettering and the keeping of clinical charts.

T. Gabel, R. N.

Ethics of Nursing :

10 Hours

Lectures and discussions dealing with the relations of the hospital to the community; the attitude of the nurse toward social problems; the patient; and the physician, hospital etiquette, discipline and nursing ideals.

Ella G. Best, R. N.

Anatomy and Physiology :

90 Hours

This course is designed as a foundation for the study of allied nursing subjects. Includes gross and microscopic study of tissues with Laboratory dissection to illustrate structures and function of organs and systems.

Ella G. Best, R. N.

Bacteriology:

25 Hours

A brief history of Bacteriology. A study of micro-organisms; methods and conditions of growth, sources and modes of infection, specific study of pathogenic and non-pathogenic forms and prophylaxis. Laboratory work includes preparation of cultures, the bacteriological examination of air, water, and milk. Growth of bacteria with staining exercise involved in the microscopic examination.

Dr. Hirsch and E. Best.

Materia Medica, including Solutions:

40 Hours

A study of drugs, their sources; therapeutic action and administration including weights and measures, abbreviations and symbols used in *Materia Medica*. Laboratory practice in preparation of standard solutions.

Ella G. Best, R. N.

Chemistry:

25 Hours

An elementary study of general chemistry as a foundation for the following subsequent courses: Anatomy, and physiology, nursing procedures, foods and cookery, bacteriology and *materia medica*.

Edna Main, M. A.

History of Nursing:

10 Hours

The evolution of nursing—its status in ancient times, the rise and development of modern nursing; and the standards and ideals of the nursing profession.

Ethelyn Peterson, R. N.

Dietetics:

60 Hours

A brief study of nutrition and values of food material with principles and methods of simple cookery. Laboratory experience furnishes a practical foundation for lectures on composition of foods and food values. Including setting and serving trays and preparation of special diets.

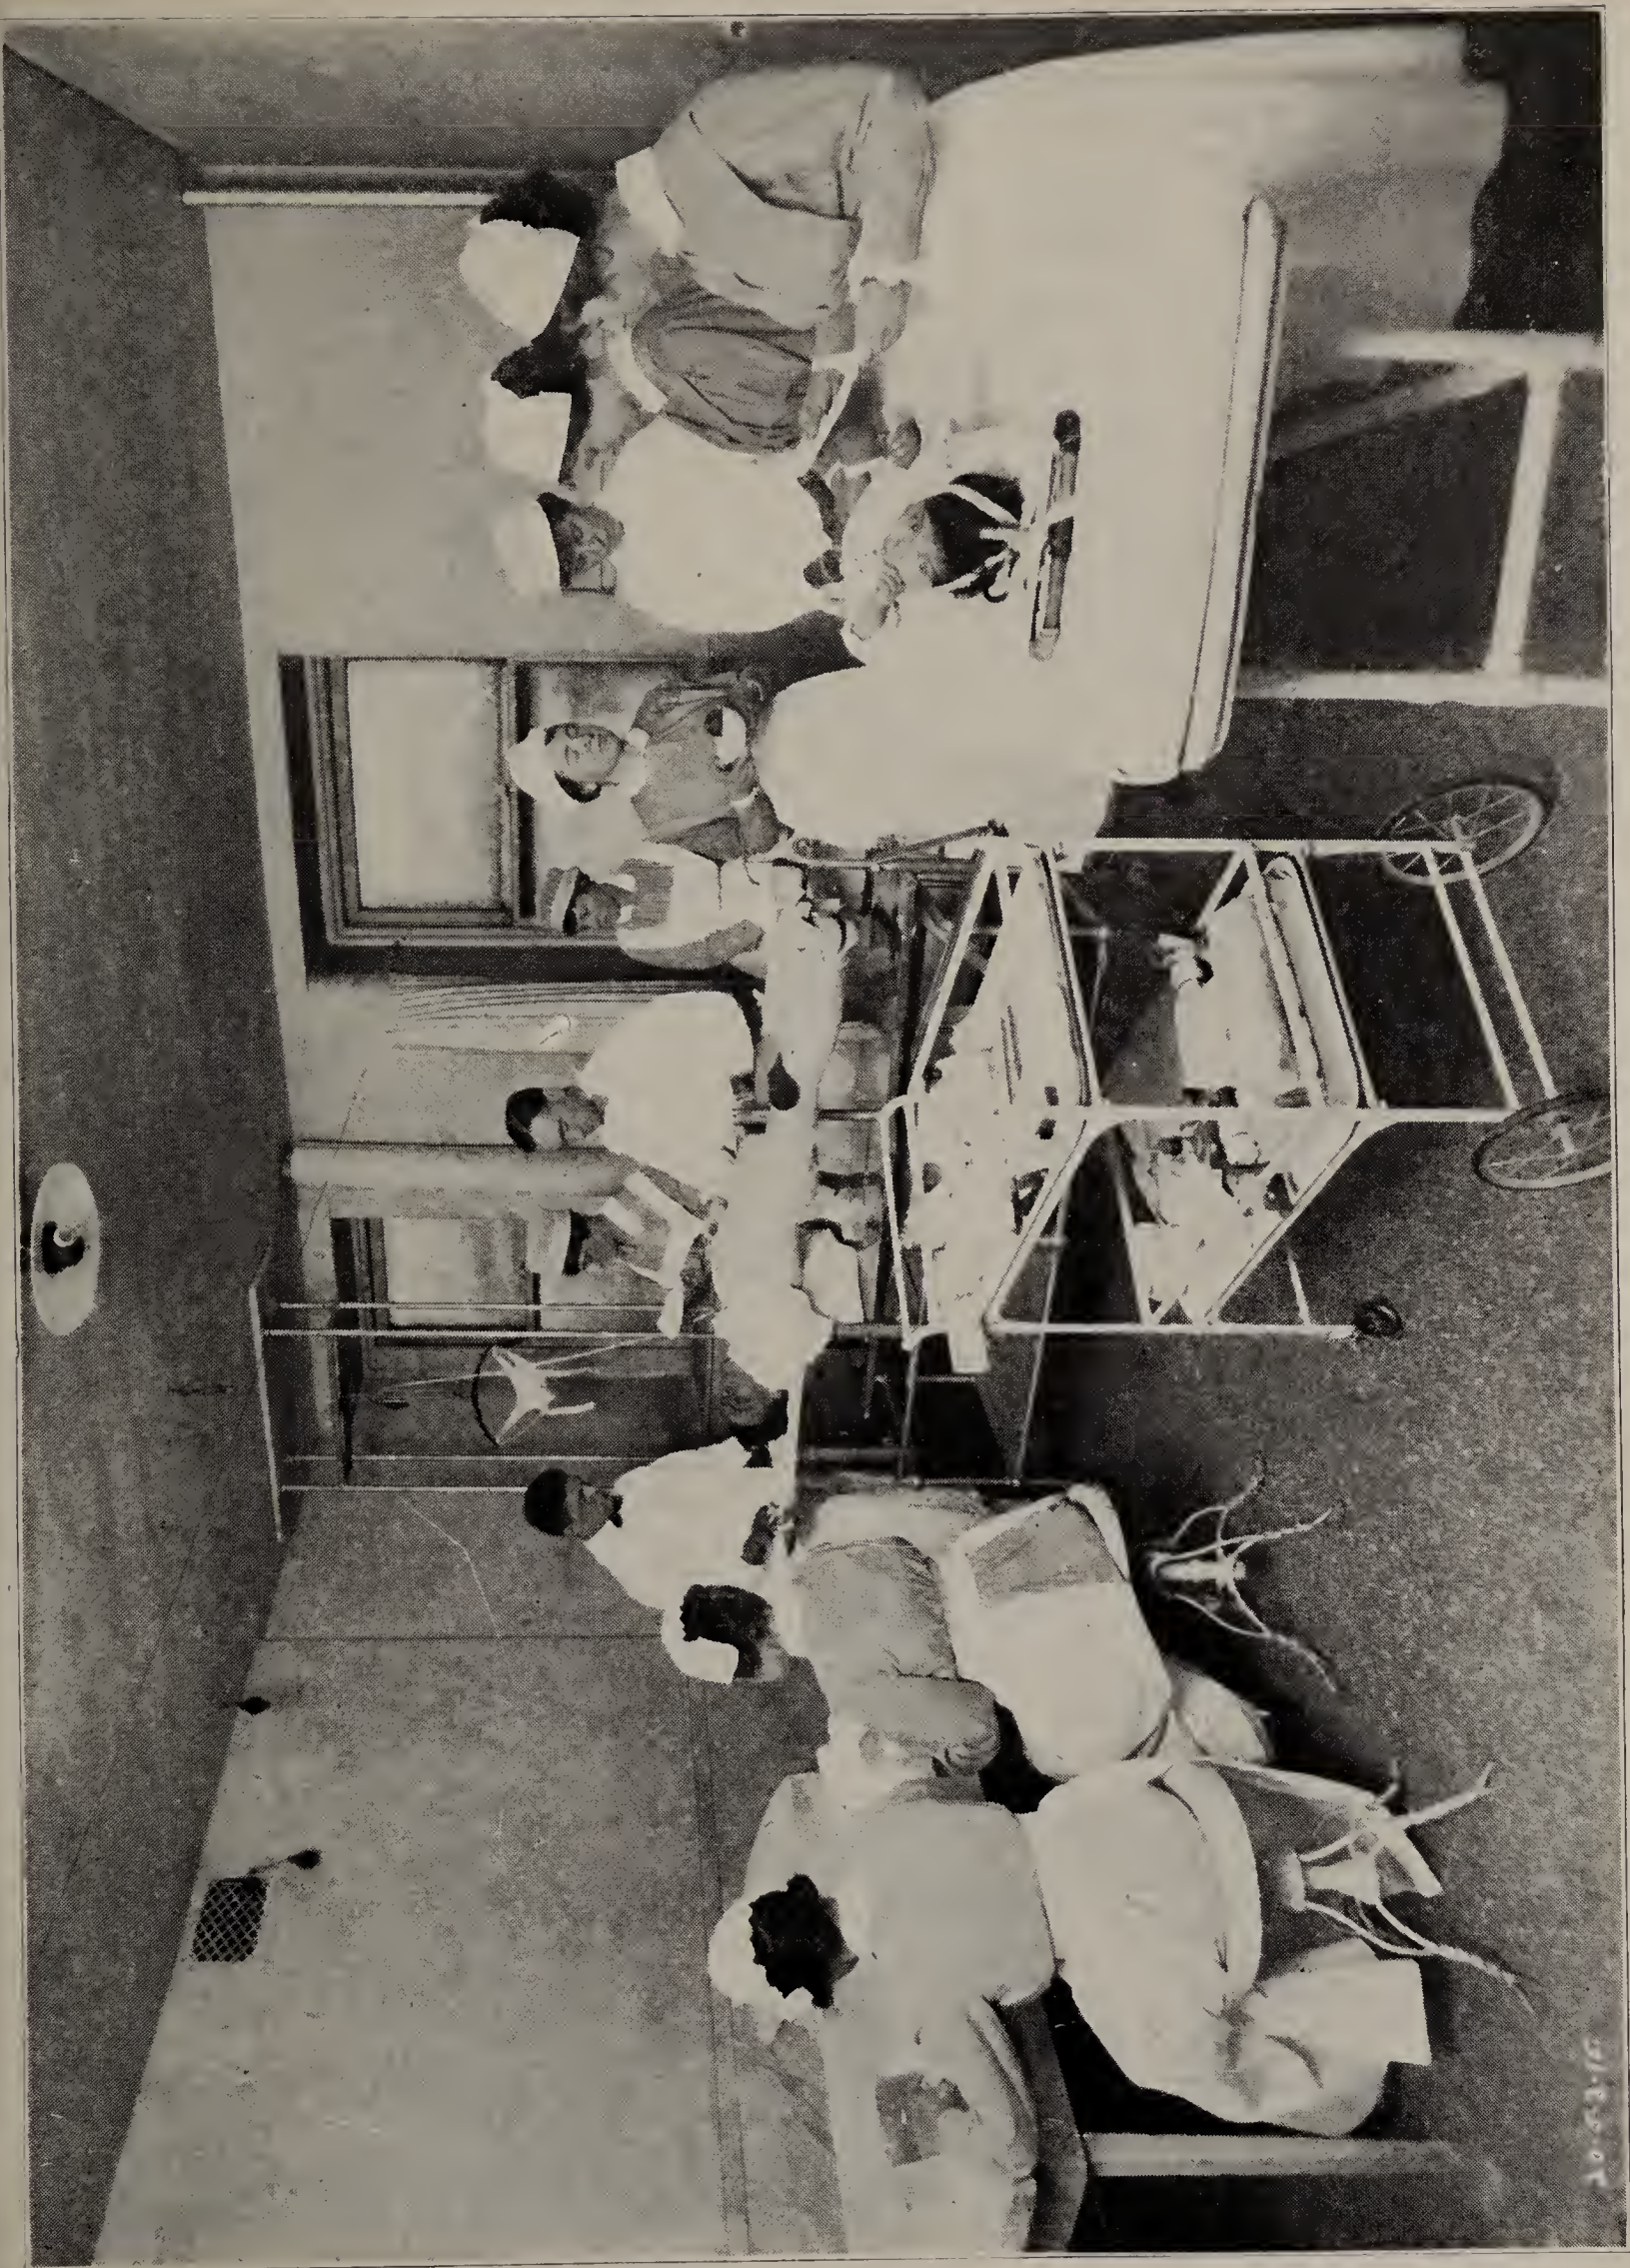

Cilia Williamson.

Hygiene:

12 Hours

Modern hygienic methods and the prevention of disease. This course includes personal hygiene.

Ethelyn Peterson, R. N.

ORTHOPAEDIC ROOM

10-53-10

JUNIOR

Essentials of Medicine : 20 Hours

A study of causes, symptoms, prevention and treatment of the diseases of the Respiratory, Gastro-intestinal and genito-urinary tracts, including the endocrine system. Lectures are correlated with classes in demonstration in procedures relative to the nursing care of medical patients.

Dr. George Coleman.

Essentials of Surgery : 16 Hours

Lectures including Nature, Causes, Symptoms and Treatment of principle surgical diseases. Lectures are correlated by classes in demonstrations of important nursing procedures.

Dr. Selim McArthur.

Operating Room Procedures : 10 Hours

This course is designed to familiarize the student with operating room methods and procedures including care and use of equipment.

Ruth Sackett, R. N.

Communicable Diseases and Their Nursing Care : 10 Hours

Lectures on the exanthemata and acute febrile types of disease, how to recognize the early symptoms, complications, and terminations, nursing care, isolation and prophylaxis.

Dr. Robert Morris.

Anaesthesia : 4 Hours

Physiology and Anaesthesia, methods of administration and resuscitation in accident or shock.

Dr. Lyons.

Pathology and Urinalysis : 16 Hours

Six lectures—ten laboratory periods.

Blood analysis, anatomy and physiology of the kidney,

normal and abnormal constituents of the urine.
T. A. Nordlander.

Pediatrics: 10 Hours

Physical and mental development of the baby.
Diseases of the new-born and during infancy.
Causes and prevention of infant mortality.
Feeding—artificial, breast and mixed.
Dr. Harold Bachman and Dr. Frank W. Young.
Nursing care.
Bertha Grace Lee.

Orthopedics: 4 Hours

Deformities of the bones, curvature of the spine.
Infantile paralysis, with corrective procedure.
Exhibition of X-Ray plates.
Dr. Henry B. Thomas and Dr. Philip Lewis✓

Gynecology: 10 Hours

A review of the anatomy of the bony pelvis, and the organs it contains; a description of the diseases of the genito-urinary tract; the various forms of surgical treatment, and post operative nursing care.
Dr. H. O. Jones.

Obstetrics: 26 Hours

A review of the anatomy and physiology of the reproductive system. A study of the care of patients during pregnancy, labor and the puerperium. Care of the new-born.
Dr. Charles Paddock, Dr. Eugene Cary and Dr. Harold Gibson.
Classes and demonstrations in obstetrical given by Nurse Instructor.

SENIOR

Oral Hygiene: 4 Hours

Lantern views—minute and gross anatomy of the teeth.
Diseases of the mouth, teeth and jaws.

Care of the teeth in health and disease.
Dr. Herbert A. Potts and Dr. F. W. Merrifield.

Ear, Nose and Throat: 4 Hours

Anatomy-Pathological conditions, their nursing care and treatment.
Dr. Marquis and Dr. Lyons.

Dermatology: 8 Hours

Occupational-skin and venereal diseases.
Dr. Edward Oliver.

Psychiatry: 10 Hours

Lectures on nervous and mental diseases with discussion on the Nursing care.
Dr. Geo. W. Hall and Dr. John Favill.

Ophthalmology: 8 Hours

Nursing care and study of diseases of the eye.
Dr. E. V. L. Brown and Lenore Thielbar.

Public Hygiene and Sanitation: 11 Hours

The object of this course is to familiarize the student with the problems of community, sanitation and hygiene including the consideration of water, milk, food supplies, sewage reduction and garbage disposal.
John Foote Norton, Ph. D., Associate Prof. of Bacteriology, University of Chicago.

Elementary Sociology: 11 Hours

This course is arranged to give the student an understanding of modern community problems and to emphasize the close relationship between health and social problems. Also to furnish a knowledge of the background and environment from which the hospital patient comes.
William L. Bailey, M. A., Associate Prof. of Sociology, Northwestern University.

Elementary Psychology: 11 Hours

An elementary course in Psychology including the fun-

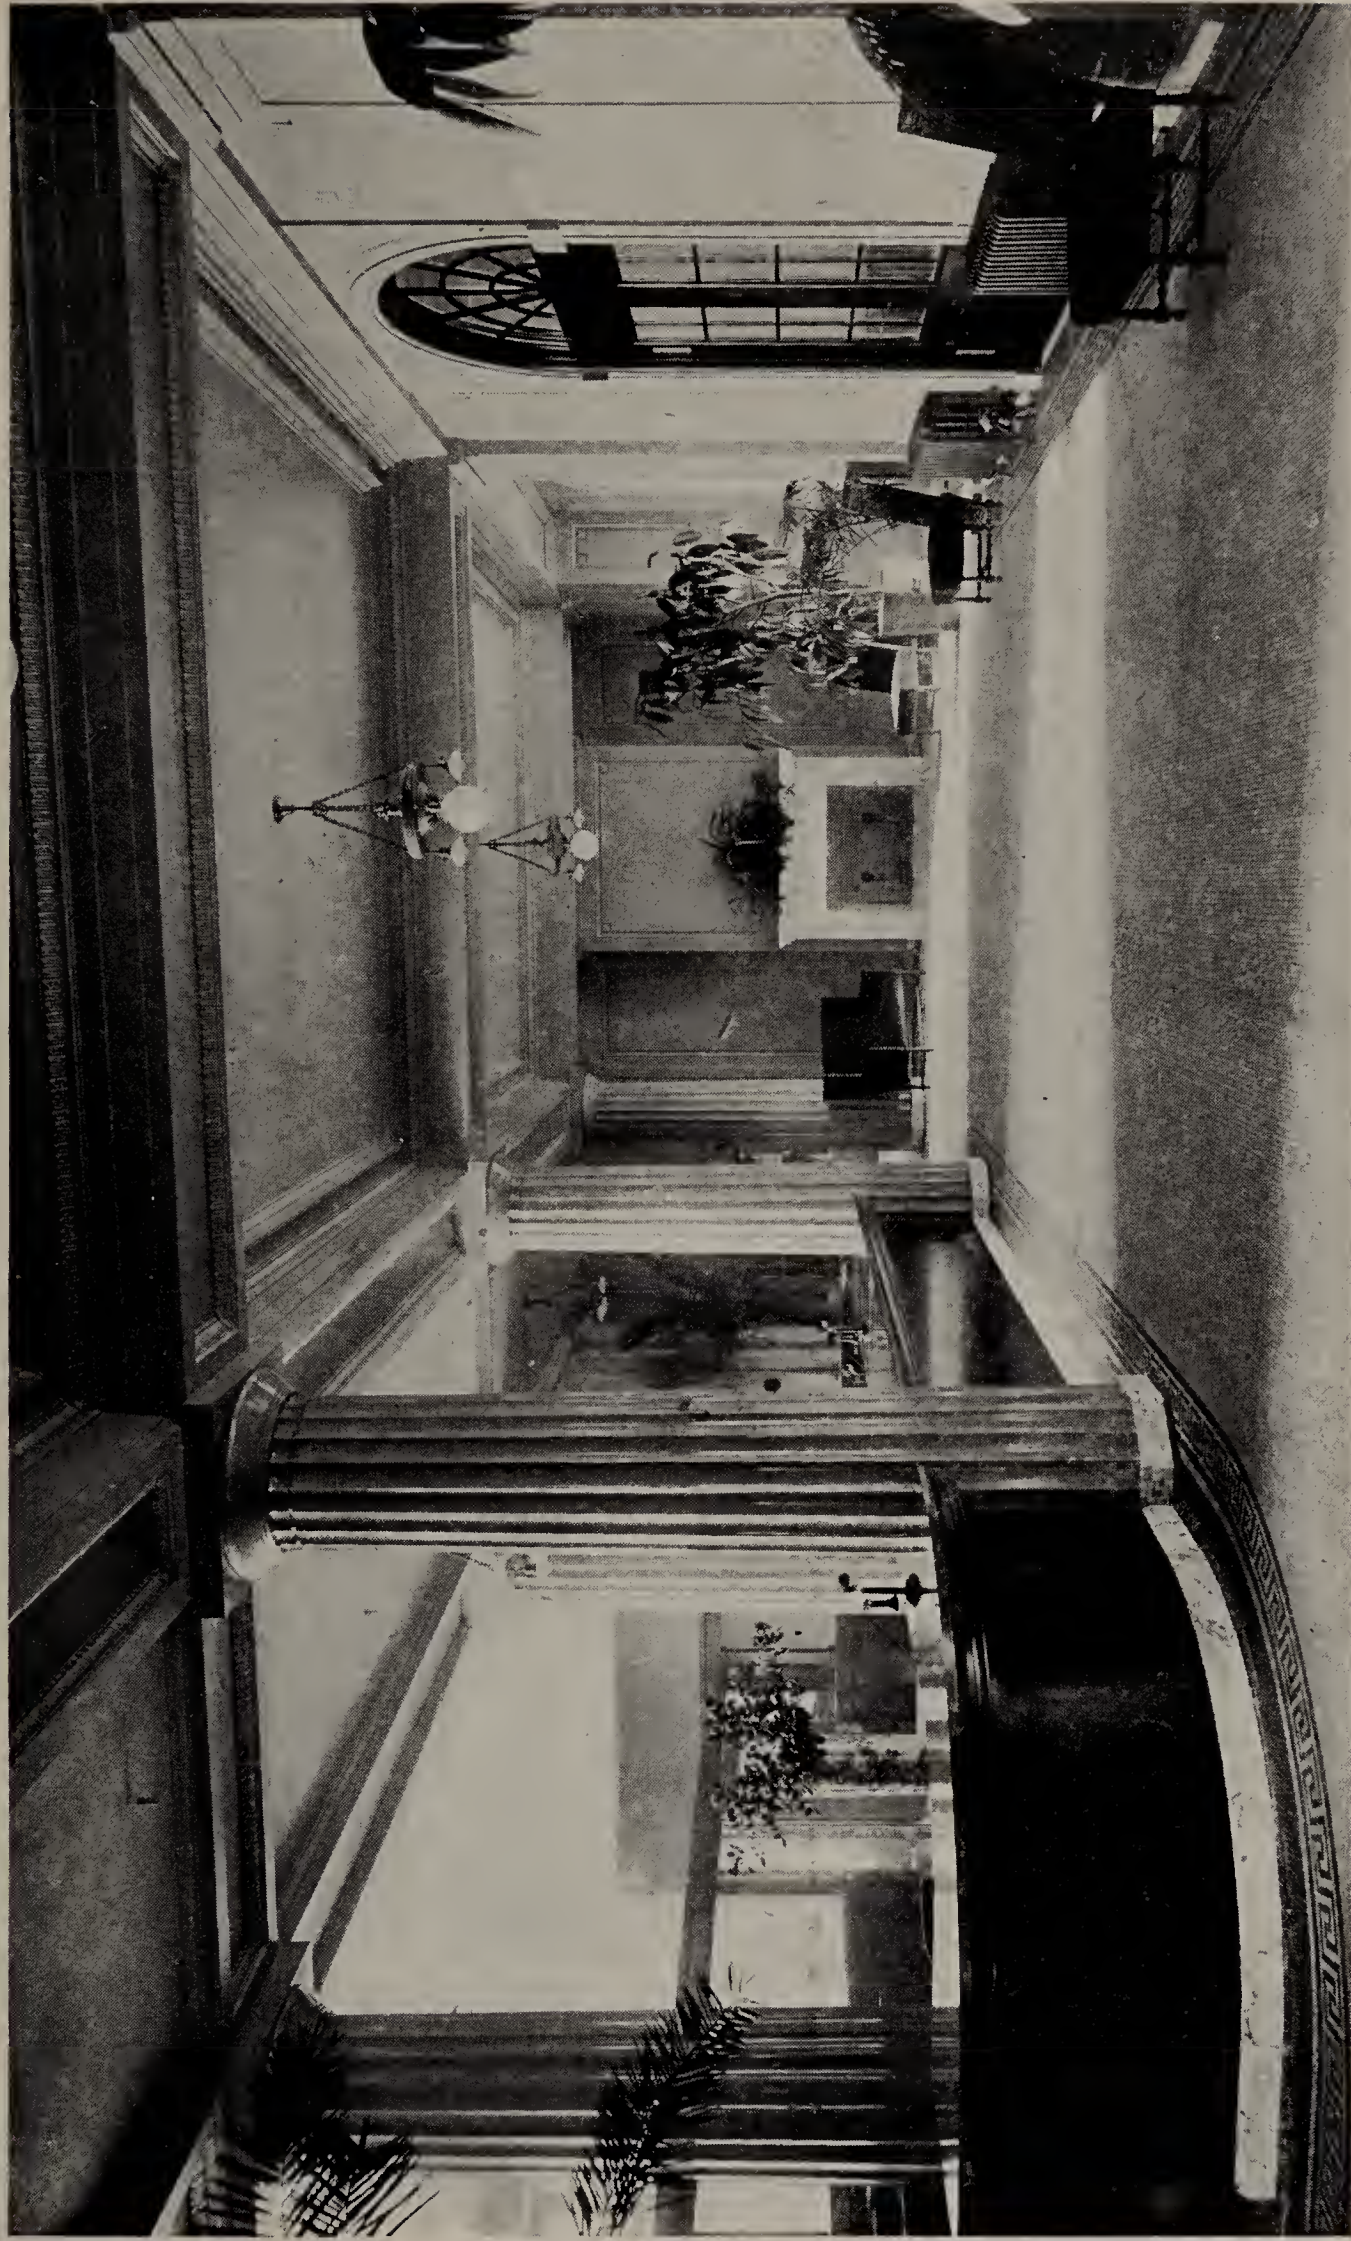

damental principles underlying human conduct.
Margaret Miller, Ph. D., University of Chicago.

Ethics: 10 Hours
Consideration of the problems of the graduate nurse,
her relation to her Alma Mater and the community.
Ella G. Best, R. N.

Social Service and Public Health: 10 Hours
Ann C. Armstrong, R. N.
and others.
